Projects

Portfolio - Astro, TailwindCSS, RSS

Personal portfolio website with blogs

- **Astro:** New framework that out performs other frameworks
- **Blogs:** Uses Astro's content collection to manage blog posts
- **RSS:** Implements RSS functionality for blog posts
- **Cross Posting:** Blog posts are automatically cross-posted to dev.to and Medium on build

[Live Site](#)

Zenlink - Python, Flask, TailwindCSS

A simple open-source URL shortener

- **Open source:** Developed with collaboration in mind
- **Self-hosting:** Can be hosted on personal servers
- **Custom Links:** Customizable link options
- **CLI Support:** Quick URL shortening from the terminal

[Github Repo](#) | [Live Site](#)

SWFT - Python, Flask, TailwindCSS

A simple temporary file sharing solution

- **Open source:** Encourages community changes
- **Self-hosting:** Deploy-able on personal servers
- **Custom Links:** Customizable link options.
- **Custom Expiry Time:** Files expire after a custom time span
- **CLI Support:** Quick file sharing from the terminal

[Github Repo](#) | [Live Site](#)

NyChess - Python, PyGame, AI, Game

A simple chess game and AI

- **Engine and AI:** Coded from scratch
- **Only uses PyGame:** Used solely for graphics
- **Multiple modes:** Player vs. Player and Player vs. AI
- **Efficiency improved:** Uses Minimax algorithm with Alpha-Beta Pruning

[Github Repo](#)

Cyno5ure - Astro, Shopify, TailwindCSS

An e-commerce website built for a clothing store

- **CMS Integration:** Integrates Shopify for content updates and management
- **Modern and Minimalistic Design:** Appealing to the target customers
- **Optimized for Speed:** Prevent customer loss due to slow site responsiveness.
- **Client Collaboration:** Effective communication with the client
